

PEDIATRIC CRITICAL CARE LEARNING (PCCL) SESSIONS

Are you a physician, nurse or respiratory therapist and have a case involving a critically unwell pediatric patient?

Pediatric Critical Care Learning (PCCL) sessions bring together interdisciplinary providers from across British Columbia to learn from case presentations. The goal is to support the provision of high-quality pediatric care utilizing best and wise practices. Providers from all sites are welcome to join and/or submit cases.

PCCL cases:

- Involve common pediatric acute care scenarios
- Highlight challenges in diagnosis, assessment or management
- May highlight challenges related to location or local resources
- Will include de-identification of the case
- Address learning objectives determined by the team who presents the case

About the PCCL Sessions

- Every 3rd Friday 1-2 pm via Zoom
- As a presenter you will have the opportunity to present the case in 10-15 minutes
- The PICU team will provide a template presentation as a guide
- Your team's learning objectives will guide PICU facilitators for the interactive learning during the remainder of the hour

Ongoing call-out for case presentations – send an email to ped.critical.care.project@phsa.ca or click [here](#)
