Kitimat General Hospital and Health Centre integrates acute care, residential care, public health and community health in one facility. The hospital has 24/7 lab and x-ray, and contains 20 acute care beds, including 2 maternity beds.

Services include Emergency, Physiotherapy, Radiology, Laboratory, Diabetes and Chronic Disease management, Outpatient Community Chemotherapy clinic, Regional Orthopaedic Centre, Regional Palliative Care Nurse consultant, Mountainview Lodge - a 36-bed residential and complex care facility, and a Public Health team.

Set in a beautiful and natural ocean, mountain, and valley paradise, Kitimat is located on the Douglas Channel just a few miles off British Columbia's inside passage. Outside of work, you can enjoy the exceptional year-round outdoor recreational opportunities from mountain biking, endless hiking, kayaking, paddle boarding, river/ocean fishing, cross country skiing, and snow shoeing.
